Summary:

Began with the Fa Chief Negotiator stressing the lack of counter documents from the Employer.

The teams discussed...

- SOTS. The FA didn't feel that SOTS should be mandatory for a Member's evaluation. The Employer argued that the people with good SOTS would disagree.
- If not SOTS, what?
- Acknowledging they appear to be at an impasse, and recognizing the interests of both sides, the FA team proposed working collaboratively to

write language that could be brought into a proposal that both sides could agree upon.

Andy stressed the important that in order to build trust, they need to see new language coming back, that would reflect conversation.

Adjourned.
